

Santa Maria di Castellabate view from Castellabate

I came here and discovered that the beaches of Santa Maria di Castellabate are part of the protected area of Cilento and are among the most beautiful beaches in Italy, awarded every year by the Blue Flag. If you come on holiday here you must take a swim in the cristalline sea of Punta Licosa, rich in flora and fauna, ideal for scuba diving enthusiasts. I also suggest the beach of Lago area, just below the cliff of Punta Tresino, wonderful for trekking enthusiasts.

Come and visit it with your family... it's ideal for all ages!

Many greetings

By.....
